

Trout Lake Sub-Area Comp Plan Update Committee

April 15 2008 meeting

Members attending: Pat Arnold, Jim White, Monte Pearson, Jerry Walker, Frank Childs

Audience: Sarah Arnold

Public Comment

There was no public comment.

April 2 Minutes

Frank noted that Ken, not he, wrote the March 18 minutes that still need approval. Monte said that the discussion in April about Glacier Springs providing adequate fire flow should mention water volume as well as pressure. Monte also pointed out that his concern with use of Trout Lake Creek as a place for bathing and laundry (in discussion about providing additional services for visitors) should also include use of the stream as a sewer. Frank moved and Monte seconded that the minutes for April 2 be approved with the above mentioned edits. The motion carried.

Road Information – Sarah Arnold

Sarah has helped us by researching information on roads for the Transportation Element. She passed out some information on categories of roads and levels of service. She also got some information about future County road work from their Six-year Transportation Plan. Most of the information will be in the appendix of the plan.

Schedule

Pat passed out a schedule for future meetings that she developed. It is attached at the end of these notes.

Capital Facilities

We finished reviewing the Capital Facilities section. We discussed the Fire District boundary, and the fact that some people are not in the Fire District. We'll invite the Fire Dept. to a meeting to discuss that and fire flows.

Next Meeting:

At our next meeting (May 7th), we'll review Transportation and Economic Development. Pat will be posting completed draft sections on the Trout Lake Web Page.

The meeting was adjourned at about 9:00 pm.

Jim White, Recorder
